

**Thank You**

Thank you for ordering brackets from ExtendMySeat, the automotive solution for more leg-room, more comfort and better driving.

**Inventory in Box:**

- 2 - ExtendMySeat brackets
- 4 - Black 3/8 bolts

**What you will need for assembly:**

- 1 - Socket wrench
- 1 - 3" or 6" wrench extension
- 1 - Protec

**STEP 1**

Remove the two black ExtendMySeat brackets from the packaging and locate the four black 3/8 bolts provided.

**STEP 2**

Use a socket to remove the two factory bolts in the front seat of the car then slide your seat all the way forward

**STEP 3**

Move to the backseat and remove the two plastic guards then locate and remove the two rear factory bolts.

**STEP 3 cont.**

**STEP 4**

Go to the front seat and move your seat all the way back to lift the front of your seat up so you can slide one front bracket under the seat, then do the same with the inner bracket. Secure the factory seat to the ExtendMySeat

Inner View

Inner View

**STEP 5**

Go to the backseat of the car to install the two rear ExtendMySeat brackets

View from the backseat showing the inner bracket

Rear outer view

**STEP 6**

Go back to the front seat and slightly tighten the ExtendMySeat brackets to the factory hole locations using the factory bolts.

**STEP 7**

Go to the backseat to secure the two ExtendMySeat bolts to the two factory bolts, then re-install the plastic guards.

**STEP 7 cont.**

**STEP 8**

Complete the installation by securing the eight bolts (four factory and four ExtendMySeat). Check to make sure all eight bolts are now tight and secure.

**STEP 9**

Test the seat by sliding it back and forth. You are complete.
