

Installation for the Honda Civic 9 (2012-2016)

Included in shipment:

- **2- Black ExtendMySeat Brackets**
- **4- Black 3/8" x 1" bolts**

Tools needed for installation:

- **Metric 14 Socket**
- **Flat Head Screw Driver**

1. Remove 2 brackets from box.
2. Remove two front seat mount bolts.
2. Slide seat all the way forward and remove rear seat mount plastic bolt cover, then remove two bolts.
3. Slide both ExtendMySeat brackets under the seat and line up holes to secure to floorboard.
4. Bolt brackets to floorboard using factory bolts.
5. Now bolt factory seat to the ExtendMySeat brackets using 4 provided black bolts.
5. Ensure all bolts are lined up and threads have been started, then tighten.
6. Re install plastic bolt covers, slide seat forward and plug all electrical connectors back in.
