

Thank You

Thank you for ordering brackets from ExtendMySeat, the automotive solution for more leg-room, more comfort and better driving.

Inventory in Box:

- 4 - ExtendMySeat brackets
- 4 - 3/8 black bolts

What you will need for assembly:

- 1 - Socket wrench
- 1 - Metric 14 socket

STEP 1

Remove the ExtendMySeat brackets from the packaging and locate the provided bolts.

STEP 2

Use the 14 socket to remove the two factory bolts in the front seat of the car then slide your seat all the way forward.

Move to the backseat and remove the two plastic guards then locate and remove the two rear factory bolts.

STEP 2 cont.

STEP 3

Your seat should be unbolted from the floorboard. Now lift the front of your seat up so you can slide the ExtendMySeat brackets under the seat.

STEP 4

Align the four ExtendMySeat brackets under the seat with the four factory holes (you can choose to remove your seat but it is not necessary)

STEP 5

Slightly tighten the rear factory hole with the factory bolt (closest to the outside of the car) then move to the rear inside and continue in a counter-clockwise pattern. You will need to slightly tighten all factory bolts into the factory hole locations. Do not secure the factory bolts until later.

STEP 6

Line up the factory seat to the new extended hole locations (4" back from the factory holes). Tighten the two front seat "feet" into the new ExtendMySeat hole locations using the ExtendMySeat bolts.

STEP 6 cont.

Outer Front

Inner Front

Front View Installed

STEP 7

Slide the factory seat all the way forward to secure the last two remaining ExtendMySeat bolts into the two ExtendMySeat holes behind the seat.

STEP 7 cont.

STEP 8

Complete the Installation by securing all eight bolts (four factory and four ExtendMySeat). Check to make sure all eight bolts are now tight and secure.

STEP 9

Re-install two rear factory plastic guards

STEP 10

Test seat by sliding it back and forth. You are now complete.
